SAFETY DATA SHEET:
L-GLUTAMIC ACID

The information is provided as a service to our customers and is intended only for their use.
This information is based on technical information believed to be reliable and will be revised
as new knowledge or experience is gained.

Date of issue: January 6, 2003
Revision date: January 21, 2019
Version 10

1. Chemical Product and Company Identification
1.1. Identification of the substance: L-Glutamic acid
REACH regulation No. N/A
1.2. Use of the substance: Various use (drugs, nutritional, industrial)
1.3. Detail of the supplier of the safety data sheet
Manufacturer's Name: Ajinomoto Co., Inc.

1.4 Contact for Correspondence Japan:
Ajinomoto Co., Ltd.
15-1, Kyobashi 1-chome, Chuo-ku, Tokyo
104-8315, Japan
Tel N°: +81-(0)-3-5250-8111
Fax N°: +81-(0)-3-5250-0079

Contact for Correspondence Brazil:
Ajinomoto do Brasil Indústria e Comércio de Alimentos Ltda.
Rua Vergueiro, 1737, Vila Mariana,
04101-001-São Paulo-SP, Brazil
Tel N°: +55 11 5080-6700
Fax N°: +55 11 5080-6789

Contact for Correspondence China:
Ajinomoto (China) Co., Ltd.
718 Rongle Dong Road, Songjiang,
Shanghai 201613 P.R. China
Tel N°: +86 21 5774-5353
Fax N°: +86 21 5774-0433

1.5. Emergency Telephone:
In continental U.S., Hawaii, Puerto Rico,
Canada, Alaska and Virgin Islands contact CHEMTREC at 1-800-424-9300.

2. Hazards Identification
2.1 Classification of the substance
Physical hazards: Not applicable
Health hazards: Not applicable
Environmental hazards: Not applicable

2.2 Label elements (REGULATION (EC) No.1272/2008)
Not applicable

2.3 Other hazards: May cause eye and skin irritation.
It will increase the biological oxygen demand (BOD) of water.

3. Composition, Information on Ingredients
3.1 Substance
Common Chemical name: L-Glutamic acid
Synonyms: (S)-2-Aminoglutaric acid
Formula: C$_5$H$_9$NO$_4$
Molecular Weight: 147.13
Composition: 98.5 – 100.5
CAS No.: 56-86-0
EINECS No.: 200-293-7
IUPAC: L-Glu
4. First-Aid Measures

4.1 Description of first aid measures

Inhalation: Immediately relocate to a fresh air environment. Rinse mouth with water. If not breathing, give
artificial respiration. If breathing becomes difficult, give oxygen and seek medical attention.

Skin Contact: Wash with soap and copious amounts of water. If irritation persists, seek medical attention.

Eye Contact: Immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate
flushing by separating eyelids with fingers. If contact lenses are being worn, remove lenses and
continue rinsing. Seek medical attention.

Ingestion: Rinse mouth with water and seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

4.3 Indication of any immediate medical attention and special treatment needed

No information available

5. Fire-fighting measures

5.1 Extinguishing media

Water spray, carbon dioxide, dry chemical powder/foam

5.2 Special hazards arising from the substance or mixture

Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential
dust explosion hazard. Upon combustion will result in carbon monoxide, carbon dioxide and nitrogen oxide
being released.

5.3 Advice for fire-fighting

No information available

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures.

Use personal protection, Make spills wet to prevent the generation of dust and then, sweep up into a closed
container.

6.2 Environmental precautions

Do not discharge into sewer, river, underground water, etc.

6.3 Methods and material for containment and cleaning up

After recovering, wash away spilled area with plenty of water.

6.4 Reference to other sections

Personal protection: see section 8

7. Handling and storage

7.1. Precautions for safe handling

Follow good industrial practice in housekeeping and personal hygiene. Wear personal protective equipment as
outlined in section 8.

7.2. Conditions for safe storage, including any incompatibilities

Store in closed containers in a dry area. Avoid humidity, sunlight and high temperature.

8. Exposure controls/personal protection

8.1 Control parameters

Contains no substance with occupational exposure limit value

8.2 Exposure controls

Respiratory protection: Dust mask or appropriate respirator. Utilize local exhaust ventilation.
Protective gloves: Rubber
Eye protection: Chemical safety goggles.
Other protective equipment: Wear appropriate laboratory apparel, protect exposed skin.
Occupational exposure limits: Not established
9. Physical and chemical properties

9.1 Information on basic physical and chemical properties
- Appearance: White crystals or crystalline powder
- Melting point: 160°C (decomposes)
- Solubility: 0.72g/100g H\textsubscript{2}O (20°C)
- pH: 3.0-3.5 (1.0g in 100mL of H\textsubscript{2}O (saturated aqueous solution))

9.2 Other data
- No data available

10. Stability and reactivity

10.1 Reactivity
- The following applies in general to flammable organic substances and mixtures; in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

10.2 Chemical stability
- Stable under normal temperature and pressures

10.3 Possibility of hazardous reactions
- Nitrogen oxides (combustion)

10.4 Conditions to avoid
- Humidity and high temperature. In presence of moisture, will oxidize and darken.

10.5 Incompatibility materials
- Strong oxidizing agents

10.6 Hazardous decomposition products:
- Nitrogen oxides (combustion)

11. Toxicological information

11.1 Information on toxicological effects
- Acute oral toxicity: LD\textsubscript{50} : 5.11 g/kg rat
- Sensitization: No data available
- Mutagenicity: No data available
- Primary skin irritation: May cause skin irritation. No specific data available
- Primary eye irritation: May cause eye irritation. No specific data available

12. Ecological information

12.1 Toxicity
- No data available

12.2 Persistence and degradability
- BOD= 0.855 g/g

12.3 Bio accumulative potential
- No data available

12.4 Mobility in soil
- No data available

12.5 Results of PBT and vPvB assessment
- PBT and vPvB assessment not available as chemical safety assessment not required/not conducted.

12.6 Other adverse effects
- WGK class (Europe):1 (group classification according to VwVwS / 17 May 1999, Germany)

13. Disposal considerations
- Dispose of the material as you would with a non-hazardous material in accordance with all applicable national, state and local regulations.

14. Transport information
- Avoid humidity and high temperature. Prevent damage of the container.
- Not classified as dangerous in meaning of transport regulations.
- Transport in Bulk according to Annex II of MARPOL 73/78 and the IBC code.
### 15. Regulatory information

#### 15.1 Safety, health, and environmental regulations/legislation specific for the substance or mixture

<table>

<td>Substance of very high concern(SVHC)</td>
<td>This product does not contain substance of very high concern above the respective regulatory limit (&gt; 0.1% (w/w)), Regulation (EC) No.1907/2006 (REACH), Article 57).</td>
</tr>
</tbody>
</table>

#### Other National Legislation
None especially.

The information given in this Safety Data Sheet does not replace the users own assessment of workplace risk as required by national, state and local health and safety legislation.

#### 15.2 Chemical safety assessment

For this product a chemical safety assessment was not carried out.

### 16. Other information

The information contained in this SDS is, to the best of our knowledge true and accurate. Any recommendations or suggestions made are without guarantee, since the conditions of use are beyond our control.
