4. **First-Aid Measures**  
4.1 Description of first aid measures  
   **Inhalation:** Immediately relocate to a fresh air environment. Rinse mouth with water. If not breathing, give artificial respiration. If breathing becomes difficult, give oxygen and seek medical attention.  
   **Skin Contact:** Wash with soap and copious amounts of water. If irritation persists, seek medical attention.  
   **Eye Contact:** Immediately flush eyes with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating eyelids with fingers. If contact lenses are being worn, remove lenses and continue rinsing. Seek medical attention.  
   **Ingestion:** Rinse mouth with water and seek medical attention.  
4.2 Most important symptoms and effects, both acute and delayed  
4.3 Indication of any immediate medical attention and special treatment needed  
   No information available

5. **Fire-fighting measures**  
5.1 Extinguishing media  
   Water spray, carbon dioxide, dry chemical powder/foam  
5.2 Special hazards arising from the substance or mixture  
   Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Upon combustion will result in carbon monoxide, carbon dioxide and nitrogen oxide being released.
